

Co-funded by
the European Union

The project TALEA - Green cells leading the Green transition (EUI102-064) is co-financed by the European Union in the framework of the programme European Urban Initiative - Innovative Actions (EUI-IA) and involves the City of Bologna as its head, Fondazione IU Rusconi Ghigi, University of Bologna, Fondazione Bruno Kessler, R2M Solutions, R3GIS and CINECA as partners and the cities of Marseille, Riga and Cluj Napoca as transfer partners. The opinions expressed belong to the sole author or authors and do not necessarily reflect the views of the European Union or the European Urban Initiative (EUI). Neither the European Union nor the EUI can be held responsible for this.

Temporary transformation and activation of TALEA Green Cells March Workshop

from 25/03/2026

25th and 27th at Bologna University Library - BUB
26th at Department of Architecture - BEA room

to 27/03/2026

via Zamboni, 35, Bologna
via Ugo Foscolo 7, Bologna

The workshop represents an important opportunity for hands-on design experimentation, dedicated to the development of three temporary interventions acting as pilot projects for the TALEA Green Cells programme in the historic centre of Bologna. The initiative is carried out in coordination with the Municipality of Bologna and Urban Innovation Foundation – Fondazione IU Rusconi Ghigi, in collaboration with L'Observatoire International, founded by Hervé Descottes, and Gehl Studio.
