bologna 9-10.05.2024
International Conference on
CHALLENGES
for the
NEXT Generation
BUILT Environment

This NEXTBUILT edition aims to stimulate a reflection on the next generation built environment within a context of **resource scarcity** or **heavily influenced by climate change impacts**, assuming a strong forward-looking approach.

Ranging from tangible (materials, water, energy) to intangible means (finance, resources, time), the Conference seeks contributions to discuss policies, trends, strategies, methodologies, design approaches and technologies to tackle future needs.

The conference is based on a dynamic structure combining inspiring keynote lectures held during the plenary session and parallel topic sessions.

TOPIC 1

**ENERGY USE AND
AFFORDABILITY
IN THE
BUILT ENVIRONMENT**

TOPIC 2

**WATER SCARCITY
AND CITIES RESPONSE
CAPACITY TO
EXTREME EVENTS**

TOPIC 3

**NEW PARADIGMS
IN BUILDINGS AND
COMPONENTS
EXPECTED LIFETIME**

TOPIC 4

**TOOLS AND MEANS
TO GO BEYOND
THE CLIMATE NEUTRAL
TRANSITION**

Submitted abstracts will enter a double-blind peer review process. All accepted papers will be published in a NEXTBUILT 2024 special issue of IOP Conference Series: Earth and Environmental Science (EES), an open-access publication indexed by Scopus, Web of Science, Ei Compendex, etc. (CC BY Licence).

**ABSTRACT
SUBMISSION
DEADLINE**

15.01.2024

**REGISTRATION
OPENS**

01.02.2024

**ABSTRACT
ACCEPTANCE
NOTIFICATION**

19.02.2024

**FULL PAPER
SUBMISSION
DEADLINE**

20.04.2024

**CONFERENCE
DAYS**

9-10.05.2024

For more information please visit the **Conference website** or send an email to info@next-built.org

NEXTBUILT24 is promoted within the activities of SITdA clusters **Environmental Design** and **Energy Climate Architecture**
NEXTBUILT24 is supported by **Piercurrà Architettura**
